

Motto... what we stand for

Striving to be unique in design, **motto** is known to make heads turn.

Originality shows in every interior concept and furniture line they pursue.

Owner Dee de Kock's says: "*there is no second chance for a first impression!* This is what drives us to always be one step ahead with every project we take on. We bend the rules, and do what's never been done before"

This is clearly seen in **motto's** lighting range as well as all the interior projects they do.

(recently completing the Cape Royale Hotel in Greenpoint, Cape Town).

They have won numerous awards at exhibitions for their unique stand designs, and was approached by Property Mag to showcase their stand last year, making the Peep-Show another out-of-the-box design.

So what's next for motto? Will have to watch this space!
